

## Guide to Sound System 1 – Switching on to get started

Sound desk

The new sound system controls are housed in the existing sound desk.

This section of the Guide gives a general introduction for switching the power on, and preparation for using the microphones circuits.

Separate section of the Guide cover the use of other inputs for a mixture of different media including microphones and music.

A

B

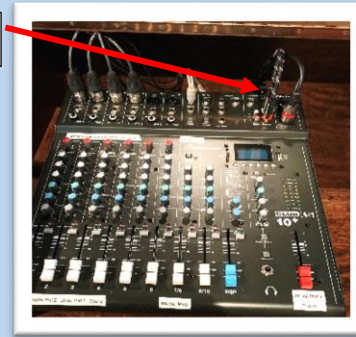

1. There are two switches that need to be switched to ON.
